QUESTION OF THE WEEK

An accessible physical environment benefits everyone, not just persons with disabilities. An accessible building is one, where persons with disabilities have no barrier in entering it and using all the facilities therein. This covers the built environment – services, steps and ramps, corridors, entry gates, emergency exits, parking – as well as indoor and outdoor facilities including lighting, signages, alarm systems and toilets. Tell us how accessible your neighbourhood/ workplace/ institution is for Divyangjans and what more could be done to make it more accessible?
